

DAILY WAR REVIEW

Saturday.
Secretary Baker's withdrawal of opposition to increasing the draft age gave new impetus to the bill in Congress to fix the age limits at 18 and 45. Provost Marshal General Crowder began to gather statistics on the increase in man power that the bill will afford and will present this data to congress. By re-classification of present draft it is expected to increase class 1 by 250,000.

The renomination and election of President Wilson in 1920 was demanded by former Governor Samuel M. Ralston, of Indiana, in addressing the State Convention of Indiana Democrats at Indianapolis yesterday. Vice President Thomas R. Marshall called for the acquelling of every Democratic candidate throughout the land who is not unwaveringly for the President and his way of winning the war.

United States employees were caught in the draft probe when charges were registered against four persons, one a yeoman in the navy and one a stenographer in a Government office, for attempting to cash a duplicate bill. Though not connected with the contingent fee graft, this case was the result of the probe by the Department of Justice.

War declaration against Turkey or the declaration of a state of war is expected as soon as the result of the attack on the American consulate at Tabris, Persia, and the looting of an American hospital at that place. Only the statement that Turkish troops had caused the raids was reported to the State Department and fuller details are being sought.

Announcement was made that the French Government will establish a secretary for Franco-American war co-operation. The new department will be headed by Capt. Andre Tardieu, the French High Commissioner to the United States. He will divide his time between Washington, where he is a French high commissioner, and Paris.

Austria, facing defeat on the battlefields and famine at home, again is clamoring for peace. The Vienna Labor council urged the Government to effect the speediest possible peace. Newspapers in Vienna openly declare that the food situation is alarming and denounce any consideration of further rationing.

Many Kentuckians of the former First State Guard, now stationed at Camp Shelby, Miss., will return to Louisville by July 15 as students in the Artillery Officers' Training School at Camp Zachary Taylor. Four thousand and officer candidates are expected to arrive at the school from all parts of the United States by July 1.

The Americans again have forced back the Germans northwest of Chateau Thierry, in the Marne region, this time without the enemy offering resistance. The Americans heavily shelled a desolated sector of the Belleau wood and when they had finished this and started forward they found the Germans had fled, bag and baggage. The Americans advanced their line more than a half mile. The German official communication says the Germans penetrated American positions at Seicheprey, in the Toul sector of St. Mihiel, and inflicted heavy casualties. Associated Press correspondent with the American army in this region says the infantry activity has been confined to an attempted raid, notwithstanding the German claim.

The Navy Department is without evidence that would justify the belief that any of the submarines that have been operating off the Atlantic coast have been accounted for, despite reports of the destruction by patrol vessels and armed steamers of one or more of the raiders.

With the consolidation of express companies on July 1, rates will be increased 10 per cent, with the sanction of the Interstate Commerce Commission. The increase, however, is tempered with many exceptions, according to localities, commodities and service.

Members of the Louisville Liberty Loan Legion to the number of 1,200 business and professional men will enlist under the banner of the Louisville War Savings Service Brigade on next Thursday and Friday to raise subscriptions of \$5,000,000 in Louisville for War Savings Stamps.

Marines on the eve of departure for overseas duty gave a realistic demonstration of trench warfare before some members of Congress, members of allied military missions and naval and marine officers at Camp Quantico, Va.

Japanese intervention in Russia and activity of German agents in Mexico in trying to foment disturbances in this country so as to hamper prosecution of the war were discussed in the Senate yesterday.

The War Department is expecting at an early date a long list of nominations for general officers from Gen. Pershing. It is believed the nominations will be made regardless of seniority.

Germany has accepted in principle the proposals of the United States for the care and exchange of prisoners of war. This was indicated by the Spanish Minister, who called upon Secretary Lansing yesterday and laid before him the progress of the Spanish legation in Berlin. The pact calls for the right to send food to the prisoners through the intermediary of the Red Cross. Allied prisoners have been underfed and a great many of them have been returned suffering from tuberculosis.

Establishment of an air route to the French battlefield from the United States in order to bring the full force of American effort in the air to bear against Germany has been decided upon by the British Air Council. Plans for an initial flight across the Atlantic in August, September or October already are well advanced. It is believed to be the purpose of the British Air Council to carry the bombing warfare into Germany on a steady in-

creasing scale.

The deportation of the alien anarchists was approved by the House without dissenting vote yesterday. The measure which amends the immigration law, was sent to the Senate. During debate Representative Robbins, of Pennsylvania, urged the death penalty for German sympathizers and propagandists.

Joseph F. Rutherford, successor of Pastor Russell as the head of the International Bible Students Association, and six of his associates were sentenced to 20 years' imprisonment for conspiracy to violate the espionage law. Since it's the will of the Lord we're glad to go, was the comment of several.

The United States may help Latin and equip armies of Central and South America for the war against Germany. The Senate Military Committee yesterday granted this authority to the War Department, in an amendment to the \$12,000,000,000 Army Bill. The men must be trained in this country.

An agreement for the increase of 45 cents a ton on the government price for iron ore, effective next July 1, was reached between the War Industries Board and the Steel Committee of the American Iron and Steel Institute. There will be no increase in the price of steel.

Denial of reports circulated in this country, presumably by German agents that negro soldiers with the American forces in France are being given more dangerous work than the white troops was cabled to the War Department by Gen. Pershing.

Four Berlin residents fled from Germany to Denmark in airplanes. They were fired upon as they flew over the Baltic. The men declared that conditions in Berlin and at the front were intolerable.

Sunday.
The United States sent 100,000 more men overseas during the past week. This brings the total American fighting force in France up to 900,000, and it is predicted that by July 1 the 1,000,000 mark will be reached, if not passed. Today the nation is five months ahead of schedule and the United States army officials are hopeful over the situation.

Sixty-one persons are dead and 179 are in hospitals in Gary and Hammond, Ind., as a result of a collision between an empty troop train and the Hagenbeck-Wallace Circus train, near Gary early yesterday. The fireman of the empty train, who is under arrest at Michigan City, said he did not see the circus train until he was almost on top of it.

In an address at the conference of the Y. M. C. A. workers at Camp Zachary Taylor, Camp General Secretary P. C. Dix declared the Y. M. C. A. must raise another \$100,000,000 war fund. Secretary Dix told of the usage to which this fund would be put and of the work of the Y. M. C. A. with the Americans in France.

As a result of Provost Marshal General Crowder's ruling that men employed in hotels must seek essential jobs or fight, Louisville hotel proprietors will meet tonight to discuss the employment of girl bell boys in an effort to find a solution to the question of lack of help.

Celebration of July 4 this year will be notable by the launching from American shipyards of the largest number of ships of the greatest aggregate tonnage ever put into the water in one day. At least 89 vessels with a capacity of 437,886 deadweight tons will be launched.

Ten per cent increase in express rates was approved by the Interstate Commerce Commission and will add about \$22,000,000 to the gross annual revenues of the American Railway Express Company, the consolidated concern which will take over the express business July 1.

Manufacturers using sugar will be cut from 50 to 75 per cent of their normal use. Ice cream makers will be cut 75 per cent and soda fountains 50 per cent. Home consumption is limited to three pounds a month per capita.

Austrian troops are being massed in the mountain region of Italy in preparation for a new offensive against the Italians and it is expected the drive will come at any time. It is reported the Germans will aid the Austrians in the coming attack.

The provision of the \$12,000,000,000 Army Appropriation Bill empowering the President to call to the colors all men who can be trained and equipped was approved by the Senate Military Committee.

Nicolai Lenin, Bolshevik Premier of Russia, has resigned in spite of a vote of confidence given him by the Soviet Committee. It is reported.

Louis Chevrolet yesterday won the \$30,000 handicap for 100 miles on the Chicago speedway. His time was 55:25 minutes.

THE BEST TEST

Is the Test of Time.

Years ago Mrs. R. J. Lewis, of Franklin St. Louisville, told of good results from using Doan's Kidney Pills. Now Mrs. Lewis confirms the former statement—says there has been no return of the trouble. Can Louisville people ask for more convincing testimony? "For a long time I suffered from annoying kidney ailments," says Mrs. Lewis. "I experimented with a good many remedies, but got no benefit. Doan's Kidney Pills, however, gave me freedom from those terrible spells of backache. They strengthened my kidneys and bladder and cured all the other symptoms of kidney complaint." (Statement given January 27, 1908.)

On December 4, 1916 Mrs. Lewis said of backache and other symptoms of kidney complaint, my kidneys have been strong and have acted regularly." See all dealers. Foster-Milburn Co., Mfgs. Buffalo, N. Y.

LIKE AN ELECTRIC BUTTON ON TOES

Tells why a corn is so painful and tells why cutting makes them grow.

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp root down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of frezone. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug frezone is harmless and never inflames or even irritates the surrounding skin.

LAWRENCE COUNTY BOY WRITES OF CAMP LIFE

Editor Big Sandy News.
Dear Sir:—Having promised to write to several friends in Lawrence county and not finding time to do so, I thought I would write them all a letter through the Big Sandy News.

It was a week yesterday since we arrived in Camp Hancock, Ga. We found things much different here from what they were in Indianapolis, for this is a real army camp and over 15,000 acres of land and will soon be increased to more than 19,000 acres.

The part of the camp where we are stationed was a pine forest before they built the camp here, and several large pines are yet standing. It is said that this is one of the healthiest camps in the United States. Everything is kept as clean as can be. The mess halls have double screen doors and are absolutely fly proof.

The days get very hot but we don't mind that much as the nights are cool and pleasant.

There were about 450 of us in the Vocational school at Indianapolis, all from Kentucky. We all lived together in one building, had a good time and learned to like the army. However, the time came when we had to separate, some were sent to Ohio, some to North Carolina, some to Atlanta, Ga., and 250 came here to Camp Hancock, where we will be placed in various divisions of the army.

Some of you have probably seen a copy of the letter our officers and instructors sent Governor Stanley praising Kentucky for the type of men that had been in their charge. We all worked hard and there was not a slacker among us.

Perhaps some do not understand how much the ordnance means to the army. Well, it is the division that has to do with the procuring by purchase or manufacture the necessary ordnance and ordnance stores of the army. Ordnance stores and ordnance include cannon and artillery vehicles and equipments; apparatus and machines for the service and maneuver of artillery, small arms, ammunition, horses and equipment for cavalry and field artillery, tools, motor trucks and railroad cars.

The ordnance depot is about the same as a small arsenal, except as to manufacturing, it is the usual repair agency for all work required by the division to which it is designed. In order to avoid an undue accumulation of this work at the depot, every effort is made to make all possible repairs on the field. Mechanics are sent out individually or in groups to assist in the repair of material. Also moving machine shops are used to avoid the piling up of repair work in the depot.

There is much more I could write about, but I guess this is enough for this time, as there is a terrible noise going on in camp just now, a division is leaving for overseas.

Hoping to see you all again when the boys come home with Victory in every fold of Old Glory, I am,

Sincerely yours,
T. J. MILLER.
Camp Hancock, Ga., 2nd Casual 2nd Prov. Regt. Ordnance Training Camp.

FORMER LOUISA BOY WRITES FROM FRANCE

The following letter to his mother at Zelma, Ky. was written by T. M. Soard who is a First Lieutenant, Q. M. C. and is somewhere in France. He is a son of Rev. A. J. Soard whose death occurred a few years ago when the family lived in Louisville:

Bakery Co No. 333
May the 12th, 1918.

Dear Mother,
To-day being mother's day, thought I would drop you a line or two. Am getting along as well as usual and there is nothing new to tell you except that I am thinking of transferring to the Artillery and going to the front, but this is not a sure thing since I do not know that it will be approved. Things are too dull here for me and there is plenty of excitement up there.

Well mother, there are thousands of the A. E. F. boys writing home to-day and there is plenty of work for the censors. I have censored more than 100 letters to-day that are going across the Atlantic bearing a message of cheer and hope and let me add as my part that we are full of confidence that victory will be ours in the end. There can be no other ending except that the world be free from the German autocrat.

My regards to the others of the family and much love to you.

SEWING MACHINE WANTED.

The members of the Red Cross auxiliary at Walbridge will soon have their work rooms ready for sewing. They need a sewing machine. They would like to rent, buy or borrow one for use in Red Cross work.

Report to the auxiliary Walbridge, or to Red Cross headquarters, Louisville, if you can help them along this line.

Cut price Millinery. Hundreds of Latest Style Hats at half-price at Justice's Department Store. 45-47.

INTERESTING EVENTS ON THE FIRING LINE

AMERICANS USE METHODS OF THEIR OWN IN DEALING WITH THE BOCHE.

With American Armies in France—With five privates, one Sergeant and one Corporal, Lieutenant Swickley left the American line and crawled on the stomach over plowed ground along the edge of a wood, until 100 yards away from a Boche post he heard men talking German. Then he crawled up under the German line until called for, and with the Corporal, went around behind the Germans. Twenty yards away from them he saw two sentinels, fully armed. He took one side of the path, the Corporal the other; and they crawled toward the Germans. When he was five yards away a twig cracked under Swickley's foot. The Germans heard and cried halt!

Zwickley replied by calling on the Germans to surrender. Then the Boche both opened fire on Zwickley, who fell as if wounded, but in falling he pulled his automatic and poured a whole clip into the body of the German who was shooting at him.

Meanwhile the Corporal had killed the other German sentinel. The six other Americans who had obeyed their orders to lie still in spite of seeing their commanding officer fall, as they thought, wounded, were called up. The body of the German whom Zwickley had killed had all marks of identification cut from his uniform, but the other German body contained the information needed.

The Americans started dragging the body, which was over six feet tall, weighing 180 pounds. In his report Zwickley said the body was in no condition to be handled, so they stripped it of identifications and returned safely to the American lines, two hours and a half after leaving them.

The American soldiers have an innate spirit of fair play and as a rule treat captives unusually well.

But the Boche recently paid heavily for barbarity toward our men. An instance of this happened the other day, when 44 Germans, including an officer, were captured by a detail of our men commanded by a Lieutenant. After crying Kamerad, kamerad, and surrendering under the rules of war when the Lieutenant's men appeared, the German officer and two men hurled stick grenades known as potato mashers, at the Lieutenant, missing him but killing three of the Americans. An American machine gun behind a tree 30 yards away opened fire on the Germans and mowed them down to the last one.

Our medical corps is greatly hampered by the Germans firing on dressing stations back of the lines, although they are plainly marked with the Red Cross and with the Red Cross flag. A Boche airplane recently located two dressing stations, and a few moments later they were shelled. A German prisoner admitted that they had orders to fire on our medical stations.

I saw a captured German today who belonged to the Medical Corps and wore a Red Cross on his arm. When searched he was found to carry a revolver and two daggers. Another had five purses which he had pilfered from American and French wounded. Our medical officers, while treating German wounded found they yelled and shriek in horror from a painless anti-tetanus injection.

When questioned by an American doctor-speaking German, they said the officers had told them that they would get injections of fatal germs from the American medical men. When shown that the American wounded were injected with the same syringe they lost their terror.

This German canard is on a par with the officer telling the men to fight to the death because Wilson had ordered American soldiers to take no prisoners. I give this instance to show that the Americans, while wishing to play the game as fairly as it can be played, do not intend to be goats for any of the enemy's tricks.

KENTUCKIAN WRITES FROM OHIO

East Akron, O., June 22.
Editor Big Sandy News:—

After nearly two years away from Kentucky, my own, my beloved and native land, I am today passing through an unusual reverie, with a strong reminiscence of gone by days with American soldiers to take no prisoners. I give this instance to show that the Americans, while wishing to play the game as fairly as it can be played, do not intend to be goats for any of the enemy's tricks.

Every corner and nook of this great Rubber city is being searched in quest of the guy who is not employed and when once discovered its work or "to the trenches" or work house. Saloon Bums, "Mashers" and street loafers, are now as far as the city is concerned, very conspicuous for their absence.

Andrew J. Kirk, Jr. and brother Chester, of Paintsville, Ky., are employed here, and holding very lucrative positions. Mrs. C. F. Kirk contemplates an extended visit among Paintsville relatives during the summer. C. F. Kirk continues to hold his position with a rubber company, and has recently been advanced in salary and in line for further and immediate promotion.

S. J. Jobe has been very ill for several days suffering from an attack of nervousness and is being treated by specialists.

Miss Dewey Sparks, of Lawrence County, Kentucky, is spending the summer with her sister, Mrs. S. J. Jobe. The gang of bandits, who had been at large in this city and committing all kinds of hideous crimes for the past year or two, has been brought to swift justice and the men now are now in the death cells awaiting the day of execution in September next.

Mr. and Mrs. S. J. Jobe have purchased a beautiful modern home located in East Akron and recently moved into their property. This property is

Red-blooded men of courage are on the firing line—and there are many anemic, weak, discouraged men and women left at home.

At this time of the year most people suffer from a condition often called Spring Fever. They feel tired, worn out, before the day is half thru. They may have frequent headaches and sometimes "pimply" or pale skin.

Bloodless people, thin, anemic people, those with pale cheeks and lips, who have a poor appetite and feel that tired, worn or feverish condition in the springtime of the year, should try the refreshing tonic powers of a good alterative and blood purifier. Such a one is extracted from Blood root, Golden Seal and Stone root, Queen's root and Oregon Grape root, made up with chemically pure glycerine and without the use of alcohol. This can be obtained in ready-to-use tablet form in sixty cent vials, as druggists have sold it for fifty years as Doctor Pierce's Golden Medical Discovery. It is a standard remedy that can be obtained in tablet or liquid form.

A good purge should be taken once a week even by persons who have a movement daily, in order to eliminate matter which may remain and cause a condition of auto-intoxication, poisoning the whole system. To clean the system at least once a week is to practice health measures. There is nothing so good for this purpose as this pills made up of the May-apple, leaves of aloes and jalap, and sold by almost all druggists in this country as Doctor Pierce's Pleasant Pellets, sugar-coated, easy to take.

situated near a rubber company's new plant and adjacent to the Arlington street car line direct to downtown districts.

Home and Milton Jobe just out of a ten months term of school are enjoying vacation about the lakes in great style.

Mrs. Nora Jobe will spend her vacation in Lawrence county, Kentucky, among relatives, during the month of August.

This climate here in Northern Ohio is certainly cool and pleasant. We have not felt, in the least sense, the presence of oppressive heat, but on the contrary, we sometimes think it's too cool.

Yours always,

PATIENCE.

FROM CAMP TAYLOR.

Tonight will write a few lines to my home paper and to my friends where I used to live. Well, everything here is rather quiet just now as there are not very many here. But there will be about 30,000 come in just a few days. The boys do not tarry very long here now, only long enough to be equipped and get shot, ha! ha!

I was over to see my home county boys last night, there is only a part of them here as the balance have been sent to other camps, what I saw seemed to be in good spirits and feeling fine.

My work now is in the main laboratory here at the base. I have a real good position, nothing hard at all. My work is operating a microscope. On account of our work being indoors we take what we call a hike for one hour from 8 to 9 a. m. Last week we went out in the country about one-half mile and found a farmer cutting and crating cabbage, so we "fell out" and put up about 20 crates for him in about 30 minutes. The next day we went back and the lady of the house brought out a fine cake and a freezer of cream and you can guess what we did then. It was fine. Well, we had with us today Col. Russell, of Washington, D. C., and two Majors. They are inspectors of all camps in the United States. They gave us the best camp and the best equipped laboratory in the United States. You should have seen us fixing up for them. Everything has to look fine when men like that come around.

Hello to everybody and success to the News.

KINNER DEAN.

June 21, 1918.

RICHARD, W. VA.
Amos Denver, son of Mr. and Mrs. Chas. W. Hatten, died June 18, aged 1 year, 8 months and 12 days.

Mr. A. D. Hatten, of Webb City, Mo., was here during the illness and death of his nephew and namesake. Mr. Amos D. Hatten returned to Webb City after a visit to his aged mother at this place.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. R. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists
